As always, your answers are extremely important to us. Please remember that your participation is *voluntary* and that you may skip over any questions that you would prefer not to answer.

This certificate can help protect the investigators from being forced to release any research information that identifies you. Please note that we must report credible evidence of serious harm or abuse to any person to the authorities, but this questionnaire does not ask any questions about such topics.

FILLING OUT THIS QUESTIONNAIRE

It is very important that the questions be answered by the person to whom the questionnaire is addressed (or by someone who knows this person well enough to answer the questions instead, if the addressee is unable to complete the questionnaire alone). Sometimes you will find an instruction telling you which questions to answer next like this:

_____ Yes

No → Go to A13 on page 3.

Please use a #2 pencil or black ballpoint pen.

Section A:

In the first part of this questionnaire section, we ask you to estimate how much time you spent doing various activities during the last week. For each activity, please tell us the number of hours you spent doing that activity. If you haven't done that activity at all in the last week, then mark the "0 hours" box to the right. If you spent less than an hour doing an activity, tell us how much of an hour you did spend (such as $\frac{3}{4}$ or $\frac{1}{2}$).

PLEASE NOTE:

- Sometimes people do more than one activity at a time — for example, listening to music while preparing a meal. That is, one hour of listening to music while preparing a meal would count as one hour of *listening to music* and also one hour of *preparing meals*.
- Similarly, one behavior might represent more than one activity included in the list. For example, e-mailing friends is both *using the computer* and *communicating with friends*. Record that time for both of the activities.
- Please include the time you spent traveling to and from an activity when estimating the amount of time spent on that activity.
- We realize that last week or last month might have been unusual, and that your answers may not reflect your typical activity patterns. It is important, however, to report the actual amount of time spent on each activity, rather than the usual amount.
- If you did not do an activity in the last week, please check the "0 hours" box.

For example, if it is easiest for you to think about what you spend on electricity in monthly terms, then please report how much you spent each month. If you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box.

For example:

- If your household’s spending on clothing in the last year was irregular or concentrated in just a few months then please report your best estimate of the total amount your household spent on clothing in the last 12 months.
- If your household’s spending on clothing was fairly evenly distributed over the year, then you can choose whether to report the average monthly amount or the total amount spent in the last 12 months, whichever you find easier.

Again, if you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box.
