Answer

Please use a #2 pencil or black ball point pen.

Section A:

In the first part of this questionnaire section, we ask you to estimate how much time you spent doing various activities during the last week. For each activity, please tell us the number of hours you spent doing that activity. If you haven't done that activity at all in the last week, then mark the "0 hours" box to the right. If you spent less than an hour doing an activity, tell us how much of an hour you did spend (such as $\frac{3}{4}$ or $\frac{1}{2}$).

PLEASE NOTE:

- Sometimes people do more than one activity at a time -- for example, listening to music while preparing a meal. That is, one hour of listening to music while preparing a meal would count as one hour of *listening to music* and also one hour of *preparing meals*.
- Similarly, one behavior might represent more than one activity included in the list. For example, e-mailing friends is both *using the computer* and *communicating with friends*. Record that time for both of the activities.
- Please include the time you spent traveling to and from an activity when estimating the amount of time spent on that activity.
- We realize that last week or last month might have been unusual, and that your answers may not reflect your typical activity patterns. It is important, however, to report the actual amount of time spent on each activity, rather than the usual amount.
- If you did not do an activity in the last week, please check the "0 hours" box.
