Health and Retirement Mail Study

2007

It is very important that the questions in this questionnaire be answered by the person to whom the questionnaire is addressed.

If the addressee is unable to complete the questionnaire alone:

It can be filled out by someone who knows this person well enough to answer the questions.

If neither the addressee nor another person is able to complete the questionnaire:

Please return the questionnaire, with a short note of explanation, in the enclosed, prepaid envelope.

ABOUT THIS QUESTIONNAIRE

This questionnaire is a part of the Health and Retirement Study. We greatly value your past participation in the HRS, and we hope that you will find this questionnaire interesting to complete. As always, your answers are extremely important to us. Please remember that your participation is *voluntary* and that you may skip over any questions that you would prefer not to answer.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the investigators from being forced to release any research information that identifies you. Please note that we must report credible evidence of serious harm or abuse to any person to the authorities, but this questionnaire does not ask any questions about such topics.

FILLING OUT THIS QUESTIONNAIRE

We have divided the questionnaire into three sections. It is very important that the questions in Section A be answered by the person to whom the questionnaire is addressed (or by someone who knows this person well enough to answer the questions instead, if the addressee is unable to complete the questionnaire alone). For the questions about household spending in Sections B and C, we suggest that the member(s) of the household most knowledgeable about the topics assist in completing those questions. At the end of each section, please record in the space provided the name of the person who completed the questions in that section.

If you have any questions about the questionnaire, please feel free to call us at

1-800-759-7947.

THANK YOU!

Conducted by: The Survey Research Center at the University of Michigan.

Go to **A13** on page 5.

Section A

In the first part of this questionnaire section, we ask you to estimate how much time you spent doing various activities during the last week. For each activity, please tell us the number of hours you spent doing that activity. If you haven't done that activity at all in the last week, then mark the "0 hours" box to the right. If you spent less than an hour doing an activity, tell us how much of an hour you did spend (such as $\frac{3}{4}$ or $\frac{1}{2}$).

PLEASE NOTE:

- Sometimes people do more than one activity at a time -- for example, listening to music while preparing a meal. That is, one hour of listening to music while preparing a meal would count as one hour of *listening to music* and also one hour of *preparing meals*.
- Similarly, one behavior might represent more than one activity included in the list. For example, e-mailing friends is both *using the computer* and *communicating with friends*. Record that time for both of the activities.
- Please include the time you spent traveling to and from an activity when estimating the amount of time spent on that activity.
- We realize that last week might have been unusual, and that your answers may not reflect your typical activity patterns. It is important, however, to report the actual amount of time spent on each activity, rather than the usual amount.
- If you did not do an activity in the last week, please check the "0 hours" box.

- If your household’s spending on clothing was fairly evenly distributed over the year, then you can choose whether to report the average monthly amount or the total amount spent in the last 12 months, whichever you find easier.

Again, if you did not spend money on a specific item or service in the last 12 months, then check the “No money spent on this in last 12 months” box.
